About Me

I am a motivated and enthusiastic professional front-end software engineer for both web and mobile apps with a strong passion for developing scalable web and mobile applications and solving real-life problems through technology with a solid computer science and mathematics foundation. Committed to developing user friendly and scalable software solutions to enhance user experiences. Seeking opportunities to contribute to innovative projects and collaborate with talented teams. I aim to continue growing as a software engineer, staying updated with emerging technologies and best practices in the industry.

Education

University of Ghana
Computer Science and Mathematics

Legon, Ghana
Jan. 2022 – Present

Experience

Team Lead and Frontend Engineer
Knuth Devs

June 2024 – Present

- Developing robust, responsive, and intuitive web applications using cutting-edge front-end technologies such as React, Tailwind CSS, JavaScript, and TypeScript
- Transforming intricate design mock-ups into pixel-perfect, functional front-end code, ensuring seamless user experiences.
- Assigning roles to my teammates and ensuring everyone has his or her duty accomplished.
- Integrating frontend code with the backend.

Front-end Development Intern
Ideation Axis

May 2024 – June 2024
Remote

- Developed responsive and user-friendly web interfaces using React.js, Typescript, and Tailwind CSS

.Translated design mock-ups into functional front-end code

Projects

HotPrepared | *A platform built with React, Tailwind CSS*

.Developed a user-friendly interface with easy search and filtering functionality.

<https://hot-prepare-recipe.vercel.app/>

OTP System |

.Designed and developed a user-friendly OTP system interface

<https://otp-system.vercel.app/>

Portfolio | *A website built with React, Tailwind and some libraries*

.Built a stunning and user-friendly portfolio website to showcase my skills and knowledge in my field of study.
